I am a graduate of Product Design degree from Bangor University with a 2:1 BSc. I have a passion for graphic design so I have learned and taught myself skill necessary to become a Graphic Designer. I have work in design agencies, and have been a freelance Graphic Designer for 3 year developing my skills.

Which you can see at [gwyn.design](http://gwyn.design)

## GWYN

### September 2018 - Present (3 years 2 months)

North Wales

I have been a Freelance Graphic Designer for 3 years, mostly working with Cambrian Photography, a photography shop, to manage their shopify website, to do graphics for events eg. posters, banner, magazine spreads, and some product photography. I have also separately been designing logos, logos for events, posters, jerseys and more. Most of which can be seen on my website.

## VCA

### October 2017 - December 2017 (3 months)

Rhos-On-Sea, North Wales

Graphic Designer

I worked as a Graphic Designer working on projects alone and with other designers at View. While here I was able to develop many of my design skills by working on a large variety of tasks. From animation to poster and spread design.

### January 2017 - April 2017 (4 months)

Cleveland/Akron, Ohio Area

Graphic Designer

A full service graphic design company. While there I was fully intergrated into the company learning and working along side the other graphic designers. While there I created a variety of logos, mailers and website layouts. I also worked with the team to brainstorm ideas for projects, including the 11th annual open house for 427 Design.

# G

**February 2016 - April 2016 (3 months)**

Caernarfon, North Wales

Designer

The company manufactures removal modular systems called Boot Jumps that fit into the van-based cars. This system transforms the car into a camper with a bed, cooker, sink and many other things in the kit. The company also renovates VW vans into camper vans.

**Bachelor of Science - BS, Product Design  
(2015 - 2018)**
